IBM CLOUD SERVICE

The screenshot displays the IBM Cloud 'Resource list' interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links to 'Catalog', 'Manage', and the user's account ('swetha s's Account'). A blue 'Create resource' button is located in the top right corner. The main content area is titled 'Resource list' and features a table with columns: Name, Group, Location, Product, Status, and Tags. Below the table header, there are filter inputs for each column. The 'Name' column is expanded, showing a list of resource categories with their respective counts: Compute (1+), Containers (0), Networking (0), Storage (0), AI / Machine Learning (0), Analytics (0), Blockchain (0), Databases (2+), Developer tools (3+), Logging and monitoring (0), and Migration (0). A vertical scrollbar is visible on the right side of the list. The bottom of the image shows a Windows taskbar with various application icons and a system clock indicating 1:20 PM on 11/11/2022.
